I can't fully grasp video classes. it would be nice if there text written formats also.

Highly repetitive, poorly structured. The instructor clearly knows what he is doing, but does not take the time to show step by step what to do. Not engaging. Way too fast. And, again, very highly repetitive from one section to another.

It's a nice course, I love the way he dives into details, also how he compares and exposes you to several AI tools for specific works and manoeuvres.
